Professional Summary

Passionate software developer with experience in building full-stack web and mobile applications using modern technologies such as React, Next.js, Spring Boot, Flask, and PostgreSQL. Strong focus on cloud-native development, clean architecture, and scalable systems. Open to internships or freelance opportunities in web and app development.

Experience

Smart Health Ops (Clinic Automation System)

Full-Stack Developer | Remote | Ongoing

- Building a cloud-native platform to manage clinic operations including appointments, prescriptions, and communication for doctors, staff, and patients.
 - Leveraging AWS ECS, Lambda, Terraform, WebSockets, and PostgreSQL to enable real-time features and scalable deployment.
 - Integrated AI billing assistant using AWS Comprehend.
-

Projects

VitalFlow – Health Tracking App

Flutter, Flask, MongoDB

- Developed a mobile app for users to monitor health metrics, appointments, and lifestyle logs.
- Built REST APIs using Flask for user authentication and health data management.

CrowdConnect – Q&A Web Platform

React, Tailwind CSS, Spring Boot, MySQL

- Created a Stack Overflow-style web app for community Q&A with upvoting, comments, and moderation.
- Backend built with Spring Boot and MySQL, following RESTful architecture.

MyBlog – Personal Blogging Platform

Next.js, Tailwind CSS, MongoDB, TypeScript

- A personal blog website with Markdown support, content previews, and dynamic routing.
- Built using Next.js API routes and MongoDB for content storage.

Finans – Personal Finance Manager

Next.js, Tailwind CSS, Flask, MongoDB

- Developed a web app for tracking expenses, setting budgets, and analyzing financial habits.
 - Backend implemented with Flask for secure data operations and analytics.
-

Technical Skills

Frontend: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Bootstrap

Backend: Python, Flask, Java, Spring Boot

Mobile: Flutter

Databases: PostgreSQL, MongoDB, MySQL

Cloud & DevOps: AWS (ECS, Lambda), Terraform

Tools: Git, GitHub, Postman, Figma

Education

B.Tech – Information Technology

Mumbai University | 2022 – 2026

Current SGPA: 8.5 (Semester 3)
